

Only You Know When You're Sick

More and more foodborne illnesses are due to ill food workers not taking the proper precautions. **You**, in partnership with management, have a responsibility to your customers to prevent this from happening in your facility.

Have you had any of these symptoms within the last

72 hours?

Diarrhea

Vomiting

Fever

Jaundice

Excessive coughing

Excessive Sneezing

Have you, or anyone you know, been diagnosed with any of the following illnesses?

E. coli 0157.H7 Infection

Typhoid Fever

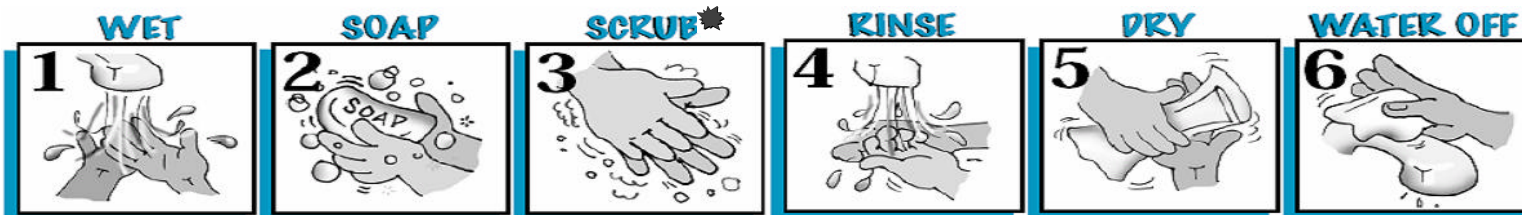

Shigellosis

Hepatitis A Infection

Norovirus Infections

IF YES, REPORT TO THE MANAGER IMMEDIATELY

You can also help prevent disease transmission with **frequent and proper hand washing.**

* Scrub for at least 20 seconds for effective hand washing
